
Audio Player Web Part

© AMREIN ENGINEERING AG

Version 1.0

December 2009

Description

The Audio Player Web Part allows you to play back Audio files (MP3's) contained in a specified Sharepoint Document Library. The Web Part either selects a random audio file or a given audio file for playback. Multiple Audio Player Web Parts can be placed on a page.

The Web Part can be used with Windows Sharepoint Services V3, MOSS 2007 and Sharepoint 2010.

The following parameters can be configured:

- Sharepoint Document Library
- Random playback/Audio File name to be played back
- Playlist Option

Prerequisites

Before you attempt to install the solution you need to make sure that you have the following installed on your server(s):

- Microsoft Office SharePoint Server 2007, WSS 3.0 or Sharepoint 2010

Installation

Manual Installation

1. download and unpack the **AEAudioplayerWebpart.zip** file.
The ZIP archive contains the AEAudioplayerWebpart.dll and the AEAudioplayer.webpart files.
2. drop the **AEAudioplayerWebpart.dll** either into the SPS web application bin directory or into the GAC of your Sharepoint server (c:\windows\assembly).
3. add the following line to the "<SafeControls>" section of your Web.Config file.
Please make sure that the line is added as one single line (no line breaks):

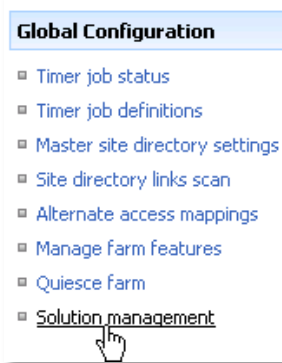

```
<SafeControl Assembly="AEAudioplayerWebpart, Version=1.0.0.0, Culture=neutral,
PublicKeyToken=c64a391a5e2d3af3" Namespace="AEAudioplayerWebpart" TypeName="*" Safe="True" />
```

4. from the top site go to "Site Actions/Site Settings/Modify All Site Settings/Galleries/Web Parts"
5. use the "Upload" menu option to upload the AEAudioplayer.webpart file.

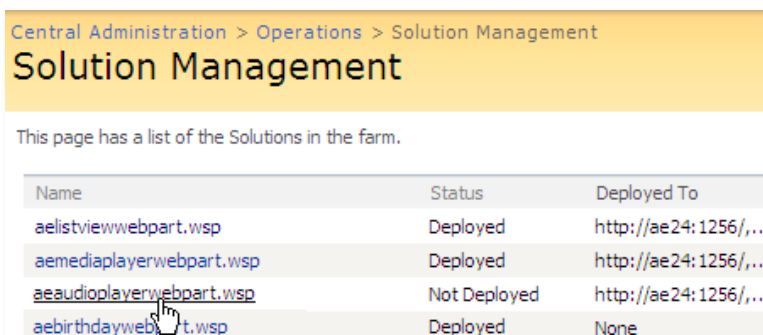

Automatic Installation

1. Unpack the **AEAudioplayerWebpart.wsp** and **Install.bat** files from the Zip Archive and place the 2 files onto your Sharepoint Server.
2. Add the Solution by either running **Install.bat** (Install2010.bat for Sharepoint 2010) or manually entering:
`stsadm -o addsolution -filename AEAudioplayerwebpart.wsp`

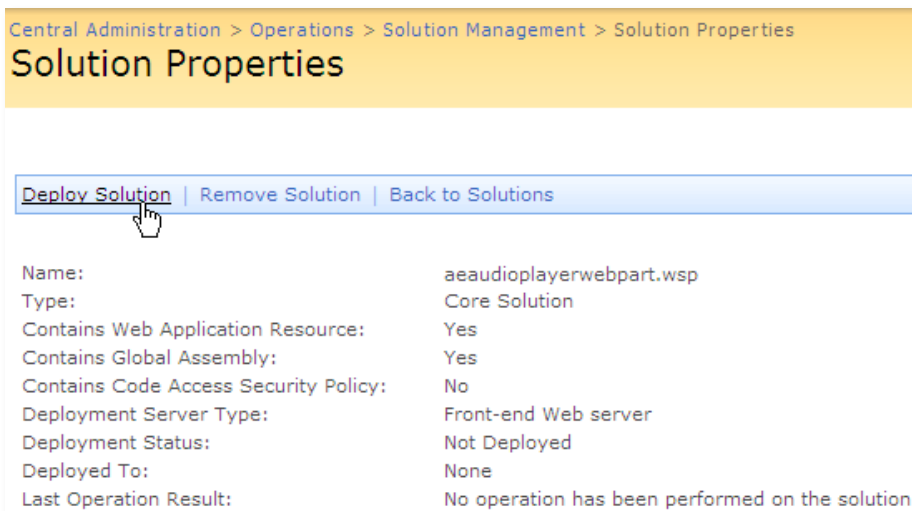

3. Deploy the solution by navigating with your browser to “Central Administration->Operations->Solution Management”:

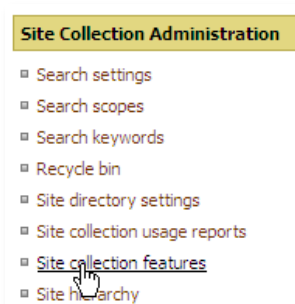

4. You should now see the **AEAudioplayerWebpart.wsp** in the farm’s solution store:

Click on “AEAudioplayerWebpart.wsp” to deploy the solution:

5. Proceed to activate the feature by navigating to the “Site Actions/Site Settings” page in your top-level site:

Choose “Site collection features” to navigate to the Site Collection Features page:

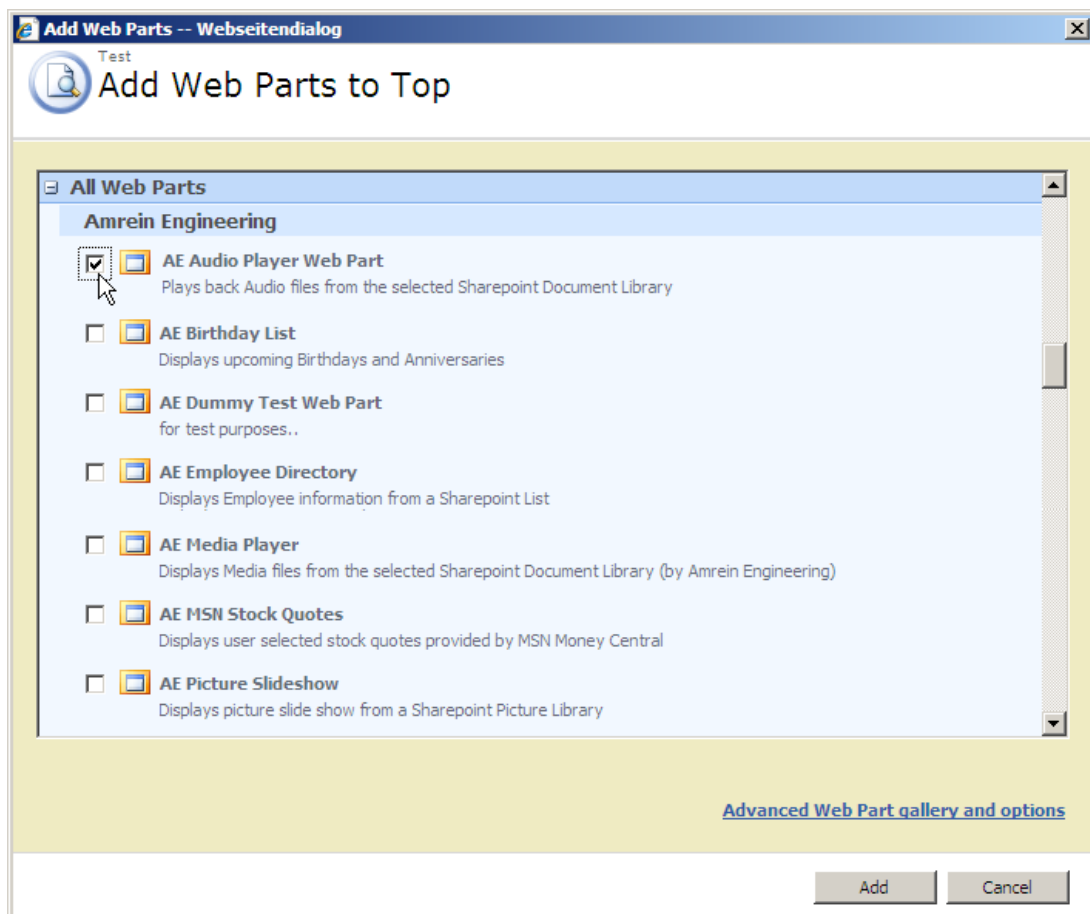

Activate the "AE AudioPlayer Web Part" feature

Adding the Web Part to a Page

Navigate to a page where you would like to place the web part and choose "Site Actions/Edit Page"

1. Add the web part to the appropriate zone. The web part is listed in the "Amrein Engineering" gallery section :

License Activation

You have the following 3 options to enter your License Key:

1. Enter the License Key into the corresponding "License Key" field in the web part configuration pane (See description above).

2. WSP Solution Deployment:

Add the **License.txt** file (as supplied by AMREIN ENGINEERING after having purchased a license) to the Solution at the following location:

```
c:\Program Files\Common Files\Microsoft Shared\Web Server Extensions\12\template\features\AEAUDIOPLAYERWEBPART
```

3. Manual Deployment:

Add the License Key to your web.config (typically found at c:\inetpub\wwwroot\wss\virtualdirectories\80) **<appSettings>** section as follows:

```
<appSettings>
.
.
  <add key="AEAP" value="AEAP-x-xxxxx-xxxxx-xx-xx" />
</appSettings>
```

Replace the "x" characters with your actual key values.

Please note that this method requires you to manually add the key to each Sharepoint application.
