

Web Part Installation Instructions for Sharepoint 2010

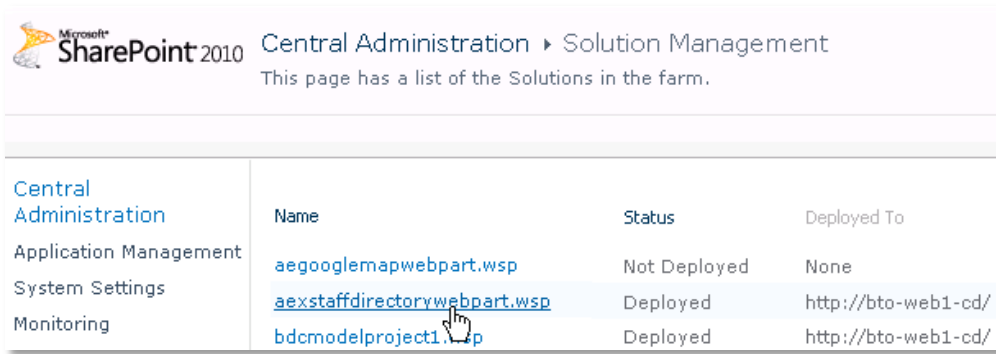

Automatic Installation

Please replace the below references to “**AESomeWebpart**” by your actual web part to be deployed.

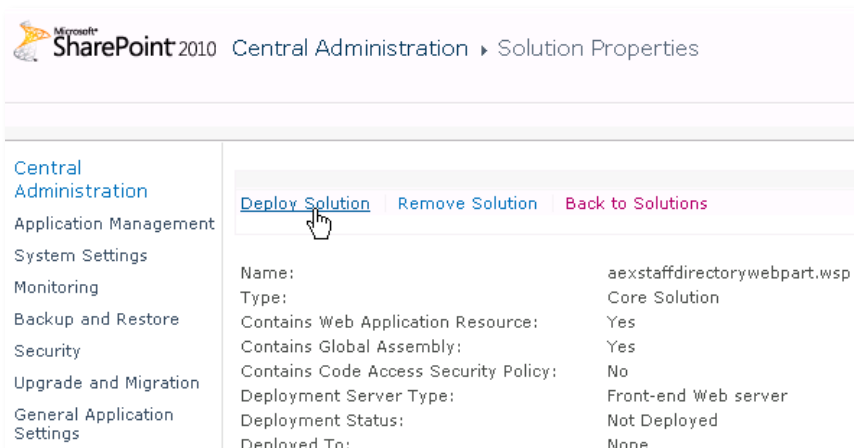

1. Unpack the **AESomeWebpart.wsp** and **Install2010.bat** files from the Zip Archive and place the 2 files onto your Sharepoint Server.
2. Add the Solution by either running **Install2010.bat** or manually entering:
stsadm -o addsolution -filename AESomeWebpart.wsp
3. Deploy the solution by navigating with your browser to “Central Administration > System Settings > Farm Management > Manage farm solutions”:

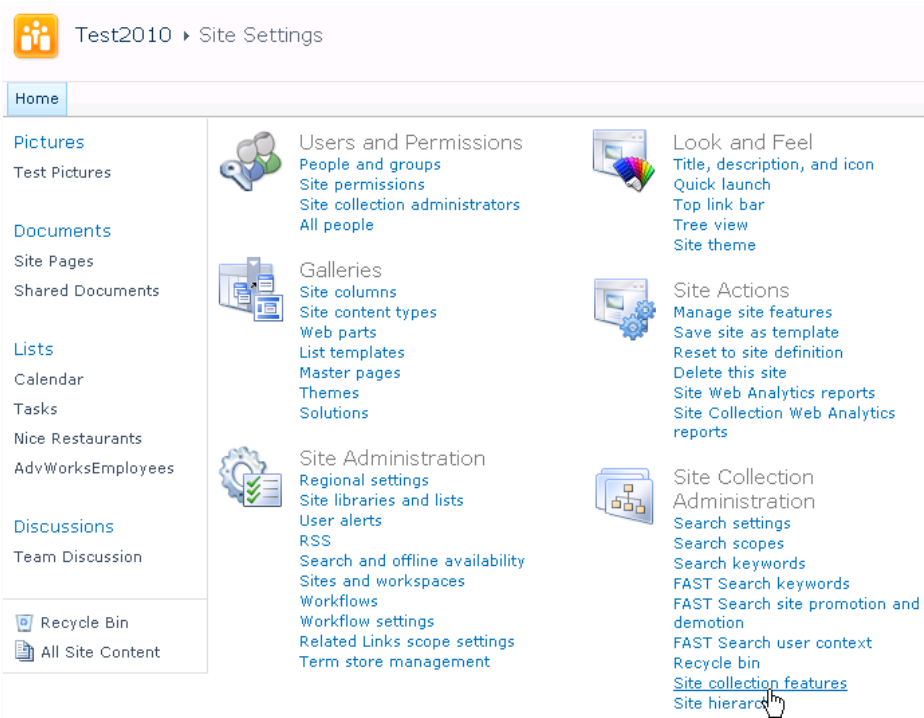

4. You should now see the **AESomeWebpart.wsp** in the farm’s solution store:

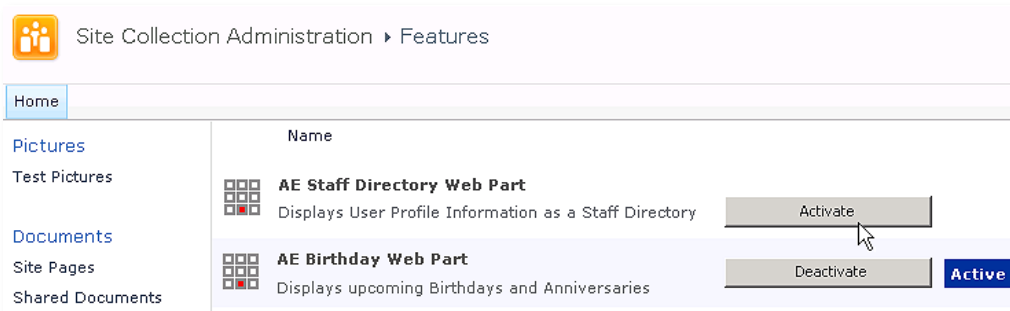

Click on “**asomewebpart.wsp**” to deploy the solution:

5. Proceed to activate the feature by navigating to the “Site Actions/Site Settings” page in your top-level Sharepoint site:

Choose “Site collection features” to navigate to the Site Collection Features page:

Activate the “AE Some Web Part” feature

Adding the Web Part to a Page

Navigate to a page where you would like to place the web part and choose "Site Actions/Edit Page"

- Add the web part to the appropriate zone. The web part is listed in the "Amrein Engineering" gallery section :
