 **CampusIntranet**

## You can do all of this, and more, with Campus

**Intranet**, available from School Web Services. Allow department staff and faculty to maintain their own areas from within their own Web browsers, without violating your campus Web site "look and feel."

Campus Intranet can be customized to the needs of your campus or district office. Once Campus Intranet is installed and configured, it is virtually maintenance-free, which means faculty and staff members can add, update or delete information easily from their own desktops, freeing your IS or IT department from these responsibilities.

function makes it easier than ever for your Human Resources Department to announce job openings, distribute position information and applications, and manage your campus's/district's open jobs. Your Human Resources staff can add new job announcements in various categories, including faculty,

## From administrative offices all the way through your organization **CAMPUS INTRANET** is tailored to meet the needs of education

**CAMPUS INTRANET** has proven to be the ideal solution for our District's Web site requirements. This cutting-edge technology allows us to maintain our Web site efficiently, without burdening the IT project slate. Campus Intranet's architecture supports faculty and staff "self-serve" management of content. Campus Intranet is a cost-effective product set that allows us to immediately deploy and manage our Web site content.

### Administrative Features:

#### CAMPUS/DISTRICT WEB PAGE AUTHORING

No more bottlenecks on getting Web pages updated. Allow all of your administrative offices, student services offices, instructional divisions and departments to have the ability to update their own pages right within their Web browser. It couldn't be easier for them to do it, just type and save. You can also eliminate stale Web site content by setting the pages to expire.

#### JOB LISTINGS

The Campus Intranet Job Listings

adjunct faculty, classified staff and hourly. They can include as much or as little information about the positions as they like, right on the Web page. Staff can provide prospective applicants with links to more detailed job information and job application forms. They can also easily put expiration dates on jobs and retrieve them from a convenient archive for re-posting or revision. People interested in future jobs can also sign up to receive notification via email of new job postings.

#### NEWS & PRESS RELEASES

Give your Public Information and/or communications staff, and

### HTML Editor

The Campus Intranet HTML Editor is automatically accessible from campus pages within Campus Intranet. This intuitive, easy-to-use Editor allows you to enter, edit and format text, and insert pictures and images to your campus Web pages, without having to learn HTML coding. It allows non-technical people to update their Web pages without a Webmaster and without changing the "look and feel" of the college Web site. Because its interface is based on popular word-processing programs, you and your staff will be able to use this Editor without extensive training.

Visit [www.campusintranet.com](http://www.campusintranet.com) for a complete feature overview, to read more testimonials and to request an online demo for your institution.

each individual division or department office—such as athletics and theater—the ability to publish news and press releases and keep information organized over time. News articles can be configured to display over a specified time range and will automatically be archived.

 **CAMPUS INTRANET** is an outstanding addition to our college's communication system. It provides a place for instructors teaching traditional courses to include online elements, such as electronic publications and discussion forums, in their curriculum. The faculty home pages are simple to set up and maintain.

on to your classrooms,  
normal institutions.

### EVENTS

The powerful Events tool in Campus Intranet allows specified users to create and distribute information about upcoming events, important dates and deadlines, and much more. They can enter a deadline for registering for an event and build a roster of who will attend. You can create a single-day event or meeting, or one that spans several days. Decide whether your event will be announced publicly or just to selected users, and actually allow people to register for your event online. Events can be automatically published to the home page and change based on date.

### Instructional Features:

#### FACULTY HOME PAGES

Faculty can easily create a home page in Campus Intranet right within their Web browsers using a template. No need for you to start from scratch, use a different server or learn HTML code to set up a home page where students and others can find contact information, office hours and overviews of the courses they teach. From this page, your users can click to reach another home page of the faculty member if they have one. Include links to URLs and documents, pictures, information about themselves and anything else students need to access

easily and that they need to be able to change easily.

#### LEARNING COMMUNITIES

In addition to the faculty home pages, give faculty members simple-to-use tools that facilitate powerful Web publishing for their courses and research. Learning Communities offer instructors a rich set of tools for their online course information, including document publishing (folders, Word, Excel, PDF files, and more), student discussion forums, class announcements (such as notifying students that a class is cancelled for a day), class news, class events and publications for their online course material.

## Technical Features

- ▲ Powered by Microsoft® SQL™ Server
- ▲ Composed of Microsoft Active Server (ASP) Pages
- ▲ Integrate any ODBC-compliant database
- ▲ Smooth integration with Microsoft Windows® security
- ▲ Support for event-based and time-based workflow triggers
- ▲ Smooth integration of third-party applications due to open architecture

## Pricing

Campus Intranet is the affordable solution! College and public school campuses today are facing serious budget cuts in serious places; that's why Campus Intranet is priced on a "sliding scale" model. Pricing is based on FTES (Full-Time Equivalent Students) enrollment for colleges/district offices and ADA (Average Daily Attendance) enrollment for K12 districts. We know Web site management is important to your campus, and we're here to help. Please visit: [www.campusintranet.com/pricequote](http://www.campusintranet.com/pricequote) for more information.
